

How to Add a YuJa Video

You can add a video from your YuJa library anywhere in your Canvas course where the text editor.

1. Go to the text editor (located when you create/edit an assignment, page, announcement, or discussion) and press the **YuJa** icon.

2. The videos listed under **Choose Media** are ones you have previously uploaded to YuJa. Press **Upload Media** if you would like to add a video from your computer. If you would like to record directly using your webcam (or other attached camera), press **Record Content**. Select the appropriate file and **Insert Content** to add it.

3. A preview of the video will be visible in the text box. Continue formatting normally and press **Save** (or **Save & Publish** to make immediately visible to your students).
